

**Joint Information Center - JIC Release No. 595**  
**March 8, 2021, 8:20 p.m. (ChST)**

**Results: Two of 634 Test Positive for COVID-19;  
 COVID-19 Vaccination Schedule for Homebound, Village-Based;  
 COVID-19 Mass Vaccination Clinics Continue Through March 13 at UOG Fieldhouse**

**Results: Two New Cases of COVID-19**

**Two (2)** new cases of COVID-19 were identified out of **634** tests performed by the Department of Public Health and Social Services (DPHSS) on Sunday, March 7, and tests from additional labs from Friday, March 5 to Sunday, March 7.

To date, there have been a total of **7,751** officially reported cases of COVID-19 with **133** deaths, **23** cases in active isolation, and **7,595** not in active isolation.

**TODAY'S CAR SCORE<sup>1</sup> 0.1**

<sup>1</sup>The COVID Area Risk (CAR) Score will be recalculated once reports from all participating labs are up to date. The CAR Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.

The following tables provide COVID-19 test results reported to the JIC on Monday, March 8, and reflects results additional labs from Friday, March 5 to Sunday, March 7:

<sup>^</sup>As of March 7, 2021. Total doses administered and allotted doses differ as vaccinators were able to draw additional doses per vial. Additionally, the [U.S. Food and Drug Administration's February 25, 2021 revision](#) of their Fact Sheet relative to the Pfizer-BioNTech Emergency Use Authorization now states "After dilution, one vial contains 6 doses of 0.3 mL. Vial labels and cartons may state that after dilution, a vial contains 5 doses of 0.3 mL. The information in this [Fact Sheet](#) regarding the number of doses per vial after dilution supersedes the number of doses stated on vial labels and cartons." | <sup>^^</sup>Reflects the previous allocation total of 51,300 and last received allocation of 35,260 on March 5, 2021

UNIVERSITY OF GUAM COVID-19 VACCINATION SCHEDULE			
DATE	TIME	VACCINE MAKE	LOCATION
Tuesday, March 9 to Saturday, March 13	10 a.m. – 5:30 p.m.	Pfizer-BioNTech (Dose 2) Moderna (Dose 2)  NO first doses will be administered	UOG Fieldhouse, Mangilao <a href="https://tinyurl.com/liberategu2021">https://tinyurl.com/liberategu2021</a>
PHASE 1a/1b/1c – CATEGORY: Healthcare workers; local and federal law enforcement personnel; School-based employees and Childcare Center employees; adults 55 years and older; Mayors' Council of Guam (limited to mayors, vice mayors, and mayoral staff); funeral homes, mortuary, and cemetery staff; service providers contracted with the DPHSS Division of Senior Citizens providing direct patient or client care such as transportation for medical appointments, homebound meals, in-home services, caregiver services, case management, shelter care, adult daycare, and other direct services; and others who are due for dose two of the vaccine. Upon arrival, individuals 70 years and older will be sent to the front of the line.			

**COVID-19 Mass Vaccination Clinics Continue Through March 13 at UOG Fieldhouse**  
COVID-19 mass vaccination clinics continue through Saturday, March 13, 2021, at the UOG Fieldhouse. Clinics are scheduled from 10 a.m. to 5:30 p.m. and will only accept those due for

their second dose of the Pfizer-BioNTech or Moderna vaccine. Eligible residents are advised to schedule an appointment online via Eventbrite at the link provided above or click [here](#).

If scheduling an appointment is not possible, walk-ins will be accepted at a limited rate of 15 per hour. Walk-ins wishing to avoid longer wait times are discouraged from lining up prior to the 10 a.m. opening, and are asked to expect reasonable delays.

**No first doses of either vaccine will be administered.** Clinics administering first doses are scheduled to start Tuesday, March 16.

Upon arrival, individuals 70 years and older will be sent to the front of the line. Please bring a digital or hard copy appointment confirmation, a photo ID, and proof of Guam residency (Guam Driver's License, Guam ID, Green Card, US or FSM Passport, H1B or H2B visas for skilled workers). Those due for their second dose are reminded to bring their COVID-19 immunization card. This ensures quicker processing and proper documentation.

Short-term deferral of the second dose will not decrease the effectiveness of the COVID-19 vaccine, nor will affected individuals be required to restart the vaccination series. According to the [U.S. Centers for Disease Control and Prevention \(CDC\)](#), the second dose should be administered as close to the recommended interval as possible. The CDC further states that if it is not feasible to adhere to the recommended interval and a delay in vaccination is unavoidable, the second dose of Pfizer-BioNTech and Moderna COVID-19 vaccines may be administered up to 6 weeks (42 days) after the first dose.
